Hi DOI Watch Office,

This request for information (RFI) is on behalf of National Park Service (NPS). It is requested that this RFI be sent out DOI wide. NPS is requesting that responses be sent both directly to the DOI Watch Office and NPS's Emergency Incident Coordination Center (EICC).

Looking for assets available for a two-week duration, specifically:

- Boats - zodiacs, safe boats, or flatwater boats that are swiftwater capable.
- The unit the resource is coming from
- POC is, and their phone number
- The number of people who will be accompanying those boats
- Resources need to be capable of going 72 hours unsupported (fuel, food, fresh water etc).
- Dry suits or some other water proof capability that allows them to avoid contact with the water on their skin as much as possible because there is a lot of HAZMAT potential in this water.
